

EXHIBIT F – DESIGN DRAWINGS

1.0 DESIGN DRAWINGS

Listed below is the current status of all Project design drawings as included in the existing FERC license under Exhibit L. Individuals who would like to review any or all of these design drawings should contact Dave Hanson at (916) 732-6703.

Table F1.0-1. Design drawings included in the current Upper American River Project FERC License.	
Drawing No.	Description
L-28	Junction Dam Concrete Outlines Spillway and Piers
L-82	Union Valley Power Conduits General Arrangement
L-83	Union Valley Powerhouse General Arrangement General Floor and Section Thru Unit
L-84	Union Valley Powerhouse General Arrangement Lower Gallery & Turbine Floor
L-85	Union Valley Penstock Plan & Profile
L-91	Rubicon Reservoir – Dams General Arrangement Plan, Profile & Sections
L-93	Buck-Loon & Rockbound Tunnels Typical Sections
L-111	Profile Gerle Creek Dam To Robbs Peak Powerhouse
L-123	White Rock Tunnel Intake Structure General Arrangement
L-124	White Rock Tunnel Intake Gate Shaft General Arrangement
L-125	White Rock Tunnel Intake to Adit No. 3 Concrete Lining – Details
L-128	Camino Powerhouse General Arrangement Plan – Elevation 1885.0
L-129	Camino Powerhouse General Arrangement Plan – Elevation 1838.0
L-130	Camino Powerhouse General Arrangement Transverse Sections – Unit No. 1 & Service Bay
L-135	Camino Penstock Plan & Profile Sheet 1 of 2
L-136	Camino Penstock Plan & Profile Sheet 2 of 2
L-137	White Rock Powerhouse Site Plan
L-138	White Rock Powerhouse General Arrangement Plan-Generator Floor
L-139	White Rock Powerhouse General Arrangement Plan – Turbine Floor
L-140	White Rock Powerhouse General Arrangement Plan – Distributor Centerline
L-141	White Rock Powerhouse General Arrangement Transverse Sections
L-153	Union Valley Spillway Concrete Outline Disch. Channel Sections & Joint Details
L-154	Union Valley Spillway General Arrangement Spillway Gate Structure
L-155	Union Valley Spillway General Arrangement Plan Profile & Sections
L-156	Union Valley Dam Embankment Sections and Details
L-157	Union Valley Dam Projected Maximum Section & Profile
L-158	Union Valley Spillway General Arrangement Discharge Channel
L-200	Junction Dam General Arrangement Plan
L-201	Junction Dam General Arrangement Elevation & Section
L-202	Junction Dam General Arrangement Vertical Sections
L-203	Junction Dam Concrete Outlines Arch Rings – Sheet 1 of 2
L-204	Junction Dam Concrete Outlines Arch Rings – Sheet 2 of 2
L-206	Junction Dam Outlet Works Sections and Details
L-207	Jaybird Tunnel – Intake Structure General Arrangement Plan Elevation & Sections
L-208	Jaybird Tunnel General Plan & Profile
L-209	Jaybird Tunnel Typical Sections
L-210	Jaybird Tunnel Plan & Profile Sheet 1 of 2
L-211	Jaybird Tunnel Plan & Profile Sheet 2 of 2
L-212	Jaybird Powerhouse General Arrangement Site Plan – Traverse Section
L-213	Jaybird Powerhouse General Arrangement Plan-Generator Floor – EL. 2940.00
L-214	Ice House Dam Main Dam - General Plan and Elevation

Table F1.0-1 (continued)	
Drawing	Description
L-215	Ice House Dam Main Dam Embankment Details
L-216	Ice House Dam Main Dam Embankment Sections
L-217	Ice House Dam Dike No. 1 General Plan & Profile
L-218	Ice House Dam Dike No. 1 Sections and Crest Detail
L-219	Ice House Dike No. 2 General Plan and Sections
L-220	Ice House Dam Spillway Plan and Excavation
L-221	Ice House Dam Spillway Dam General Arrangement
L-222	Ice House Dam Outlet Works General Arrangement
L-223	Ice House Dam – Outlet Works Intake Structure General Arrangement
L-224	Ice House Dam – Outlet Works Outlet Structure General Arrangement
L-225	Union Valley Diversion & Power Tunnels Typical Sections
L-226	Union Valley Spillway General Arrangement Spillway Gate Structure
L-227	Union Valley Dam General Plan
L-228	Union Valley Dam Projected Maximum Section & Profile
L-229	Union Valley Dam Embankment Sections & Details
L-230	Union Valley Gate Shaft General Arrangement
L-231	Union Valley Spillway General Arrangement Plan Profile & Sections
L-234	Union Valley Dam Modification Dam Embankment Plan and Sections
L-236	Union Valley Dam Modification Spillway Plan and Profile
L-241	Camino Dam General Arrangement Plan
L-242	Camino Dam General Arrangement Elevation
L-243	Camino Dam General Arrangement Sections
L-244	Camino Dam General Arrangement Basic Geometry
L-245	Camino Dam Concrete Outlines Arch Rings – Sheet 1 of 2
L-246	Camino Dam Concrete Outlines Arch Rings – Sheet 2 of 2
L-247	Camino Dam Concrete Outlines Gate Openings – Sheet 1 of 2
L-248	Camino Dam Concrete Outlines Gate Openings – Sheet 2 of 2
L-249	Camino Dam Outlet Works Concrete Outline and Reinforcement
L-250	Camino Tunnel – Intake Structure General Arrangement Elevation and Sections
L-251	Camino Tunnel General Plan & Profile
L-252	Camino Tunnel Typical Sections
L-258	Brush Creek Dam Plan
L-259	Brush Creek Dam Upstream Elevation and Sections
L-260	Brush Creek Tunnel – Intake Structure General Arrangement Elevation & Sections
L-260 (2)	Brush Creek Reservoir & Tunnel General Arrangement Plan
L-261	Gerle Diversion – Gerle Dam General Arrangement Plan
L-262	Gerle Diversion – Gerle Dam General Arrangement Elevations and Sections
L-263	Gerle Diversion – Canal Intake Concrete Outline Plan Sections & Details
L-264	Gerle Diversion General Arrangement Plan & Profile
L-265	Gerle Diversion – Gerle Canal Typical Sections & Details Sheet 1 of 2
L-266	Gerle Diversion – Robbs Peak Dam General Arrangement Plan
L-267	Gerle Diversion – Robbs Peak Dam General Arrangement Elevation & Sections
L-268	Gerle Diversion – Robbs Peak Dam Outlet Works General Arrangement
L-269	Robbs Peak Tunnel – Intake Structure General Arrangement Elevation & Sections
L-270	Gerle Diversion – Robbs Peak Dam Bulkheads General Arrangement
L-272	Gerle Diversion – Robbs Peak Dam Bulkheads Supporting Frame
L-274	Robbs Peak Tunnel General Arrangement Plan & Profile
L-275	Robbs Peak Tunnel Typical Sections
L-276	Robbs Peak Powerhouse General Arrangement Plans-Generator, Turbine & Valve Floors
L-277	Robbs Peak Powerhouse General Arrangement Sections Thru Unit
L-279	Loon Lake Main Dam General Arrangement Sections and Details

Table F1.0-1 (continued)	
Drawing	Description
L-280	Loon Lake Main Dam General Arrangement Plan & Profile
L-281	Loon Lake Spillway Excavation Plan Profile & Sections
L-282	Loon Lake – Outlet Works General Arrangement Plan Profile & Sections
L-283	Loon Lake – Auxiliary Dam General Arrangement Plan Profile & Sections
L-284	Loon Lake – Dike General Arrangement Plan Profile & Sections
L-286	Loon Lake Penstock Intake Gate Shaft General Arrangement
L-287	Loon Lake Penstock General Arrangement
L-288	Loon Lake Penstock Sections and Details
L-289	Loon Lake Access Building General Arrangement Sheet 1 of 3
L-290	Loon Lake Access Building General Arrangement
L-291	Loon Lake Access Shaft Excavation Plan & Profile
L-292	Loon Lake Machine Hall General Arrangement Plans – Mezzanine & Generator Floor
L-293	Loon Lake Machine Hall General Arrangement Plan – Turbine Floor
L-294	Loon Lake Machine Hall General Arrangement Longitudinal Section
L-295	Loon Lake Tailrace Tunnel Excavation Sections and Details
L-296	Loon Lake Tailrace – Outlet Excavation Plan and Sections
L-297	Loon Lake Tailrace Outlet Concrete Outline Sheet 2 of 2
L-298	Rubicon Main Dam General Arrangement Plan & Profile
L-299	Rockbound Tunnel Intake Structure General Arrangement
L-300	Rockbound Tunnel General Arrangement
L-301	Rockbound Tunnel Outlet Channel
L-302	Rockbound & Buck-Loon Tunnels Typical Sections
L-303	Buck Island Dams General Arrangement Plan & Profile
L-304	Buck-Loon Tunnel Intake Structure General Arrangement
L-305	Buck-Loon Tunnel General Arrangement Plan & Profile
L-307	Slab Creek Dam Plan
L-308	Slab Creek Dam Upstream Elevation & Sections
L-309	Slab Creek Dam Geometry
L-310	Slab Creek Dam Excavation Plan & Sections
L-311	Slab Creek Dam Concrete Outline Spillway & Piers
L-312	Slab Creek Dam Fishwater Outlet Works Plan, Sections & Details
L-315	White Rock Tunnel General Arrangement Plan & Profile
L-316	White Rock Tunnel Typical Sections
L-318	White Rock Tunnel Adit No. 3 Excavation
L-319	White Rock Penstock Plan and Profile Sheet 1 of 2
L-320	White Rock Penstock Plan & Profile Sheet 2 of 2
L-326	Robbs Peak Penstock Plan & Profile Sheet 1 of 2
L-327	Robbs Peak Penstock Plan & Profile Sheet 2 of 2
L-328	Brush Creek Tunnel Typical Sections
L-330	Rubicon Dams General Arrangement Sections
L-331	Buck Island Dams General Arrangement Sections
L-332	Loon Lake Tailrace Tunnel General Arrangement Plan & Profile
L-333	Robbs Peak – Intake Trash Rack Bridge Structure Plan Sections
L-334	Robbs Peak – Intake Structure Steel Trash Rack Elevation & Sections
L-335	Robbs Peak Tunnel Surge Shaft Excavation, Concrete Outline & Reinforcements
L-336	Brush Creek Tunnel General Arrangement Plan & Profile
L-337	Rubicon Auxiliary Dam General Arrangement Plan & Profile
