

Sacramento Municipal Utility District

Iowa Hill Pumped Storage Development Project Description

**Draft Revision 1
November 2003**

Table of Contents

Section 1.0 1-1

Exhibit A – Project Description..... 1-1

1.0 Project Description 1-1

1.1 Executive Summary 1-1

1.1.1 Purpose and Need for the Project..... 1-2

1.1.2 Relicensing Schedule..... 1-4

1.1.3 Project Alternatives 1-4

1.2 Generating Facility Description..... 1-4

1.2.1 Major Equipment..... 1-5

1.2.1.1 Main Power Transformers..... 1-7

1.2.2.2 Transformer to Switchyard Connection..... 1-7

1.2.2 Underground Tunnels and Powerhouse 1-7

1.2.2.1 Powerhouse..... 1-7

1.2.2.2 Water Conductors..... 1-8

1.2.3 Upper Reservoir 1-10

1.2.4 Preliminary Intake Design 1-12

1.2.4.1 Upper Reservoir Intake Design 1-12

1.2.4.2 Slab Creek Reservoir Intake Design 1-13

1.2.5 Transmission Line Interconnection..... 1-13

1.3 Water Use 1-14

1.4 Lands of the United States 1-15

Section 2.0 2-1

Exhibit B – Project Operation 2-1

2.0 Project Operation..... 2-1

2.1 Expected Operation for the Proposed Project 1

2.2 Facility Design and Site Alternatives 2-2

2.2.1 Shaft Powerhouse..... 2-2

2.2.2 Unit Configurations 2-3

2.2.3 Slab Creek Intake/Outlet Structure 2-3

2.2.4 Transmission line routes 2-4

2.2.5 Synchronous Speed Pump/Turbine Units..... 2-6

Section 3.0 3-1

Exhibit C – Project Construction Schedule..... 3-1

3.0 Construction 3-1

3.1 Schedule/Duration..... 3-1

3.2 Tunnel Construction 3-3

3.3 Access To Site 3-6

3.3.1 Upper Reservoir 3-6

3.3.2 Powerhouse/Intake Structure/Switchyard..... 3-7

3.4 Transporting Rock to the Upper Reservoir Site 3-8

3.5 Temporary Construction Facilities and Laydown Areas..... 3-8

Section 4.0 4-1

Exhibit D – Project Costs and Financing..... 4-1

4.0 Project Costs and Financing 4-1

Section 5.0 5-1

Exhibit F – General Design Drawings..... 5-1

5.0 General Design Drawings..... 5-1

Section 6.0 6-1

Exhibit G – Project Map 6-1

6.0 Project Map 6-1

List of Figures

Figure 1.1	Iowa Hill Pumped Storage Project Location.....	1-16
Figure 1.2	Iowa Hill Development/Project Area Map	1-17
Figure 1.3	Iowa Hill Development/Project Area Map	1-18
Figure 1.4	Transmission One Line With Iowa Hill Tie-I.....	1-19
Figure 2.1	Expected Operating Capacity.....	2-9
Figure 2.2	Representation of Shaft Powerhouse for Iowa Hill	2-10
Figure 2.3	Alternate Transmission Routes	2-11
Figure 3.1	Balanced Cut and Fill Approach For Upper Reservoir Construction	3-6
Figure 3.2	Typical Improvements for the Last Portion of the Slab Creek Reservoir Access Road	3-10
Figure 5.1	Cross-Section of Iowa Hill Pumped Storage Development.....	5-2
Figure 5.2-1	Powerhouse Cross-Section View 1.....	5-3
Figure 5.2-2	Powerhouse Cross-Section View 2.....	5-4
Figure 5.2-3	Powerhouse Plan View at Elevation 1748.8 ft.	5-5
Figure 5.2-4	Powerhouse Plan View at Elevation 1728.9 ft.	5-6
Figure 5.2-5	Powerhouse Plan View at Elevation 1709.2 ft.	5-7
Figure 6.1	Plan View	6-2
Figure 6.2	Section A-A' Looking East – Schematic Layout Only, Not for Construction	6-3

List of Tables

Table 1.1	Preliminary Dimensions for the Powerhouse Caverns.....	1-8
Table 1.2	Preliminary Dimensions for the Water Conductors.....	1-10
Table 2.1	Plant/Reservoir Options Evaluated.....	2-3
Table 2.2	Transmission Route Evaluation Matrix	2-5

Appendices

Appendix A. Timeline

Appendix B. Iowa Hill Photo Tour

Appendix C. Photos of the Existing Slab Creek Reservoir Access Road

Appendix D. Plenary-Approved Study Plans to Be Expanded
