Directions to SMUD's Customer Service Center

SMUD has two four-story buildings located adjacent to Highway 50 on the north side, between 59th Street exit and 65th Street exit. The Customer Service Center (CSC) is the newer building of the two located at 6301 S Street, and houses the Rubicon Room, Forestview 1,2, & 3, Sequoia 1,2,& 3, Timberline 1,2, & 3, and the HRL Conference Room located on the third floor (Northwest wing). The Headquarters building is located at 6201 S Street, directly west of the CSC. It houses the Headquarters' Customer Center (HCC), the Auditorium and several other conference rooms.

The Field Reporting Facility (aka FRF) is located behind the SMUD Headquarters building: go under the Light Rail overpass, then to the left about 150 yards.

Directions:

Heading East: From downtown Sacramento, head east on Highway 50, exit at **59th Street**. This exit will take you up-and-over Highway 50. Go straight at the first intersection, travel about a half mile. On your left (north) is the SMUD Headquarters building, the next building is the Customer Service Center.

Heading West: From Placerville, take Highway 50 to Sacramento and exit at **65th Street**. Go straight about one block after the first intersection. The Customer Service Center is the four-story building on your right (north).

You should be able to find parking spaces for visitors located in the area between the two buildings. There is also parking available in a parking lot on Folsom Blvd. behind the SMUD complex.

If you need assistance to find the Rubicon Room, Timberline 1,2,& 3, Sequoia 1,2,& 3, Forestview 1,2, & 3, and the Hydro Relicensing's Conference Room located on the third floor of the Northwest wing, see the guard at the lobby desk. The Headquarters Customer Center (HCC) room is located in the Headquarters building opposite the board of directors Auditorium in the first floor. Drive Safely.

Subject: UARP - Terrestrial TWG meeting May 20, 2004

Dear Terrestrial TWG participants,

The next Terrestrial TWG meeting is scheduled for May 20, 2004, from 9:00 a.m. to 4:00 p.m. The meeting will be held at the Bass Lake Fire Department. An agenda is attached below.

The purpose of the meeting is the same as previously scheduled meetings: to begin discussions relative to adequacy of the data reports that have been issued to date and develop any conclusions based on the information contained in the reports. These reports are:

- * Bald eagle and osprey (interim)
- * Bats
- * Bird-powerline associations
- * Black bear
- * Invasive/noxious weeds
- * Mesocarnivores
- * Mule deer
- * Special status plants
- * Valley elderberry longhorn beetle (VELB)
- * Vegetation mapping
- * Waterfowl nesting habitat
- * Wetlands/riparian vegetation (UARP and Chili Bar)
- * Willow flycatcher

The data reports are located at the UARP Relicensing Web Page at http://hydrorelicensing.smud.org/docs/docs_spr.htm. Unless specifically requested, we will not have hard copies of the report available, but will have the documents available for projection if needed.

As noted in earlier emails, the draft Settlement Protocols contain instructions to the TWGs to evaluate the technical reports for adequacy with respect to providing information to answer issue questions. The TWGs are also instructed to develop conclusions from the reports concerning the need to develop PM&E measures. These conclusions will later assist the Settlement Negotiation Group in developing PM&E measures for the new license, which will begin soon.

Also at this meeting we will have a "near final" mule deer study plan to discuss and consider for approval.

Please call me with any questions you may have. I look forward to seeing you on the 20th. My apologies to Dawn Lipton, who was the only person who could not make it on the 20th. Dawn, can Susan come in your place?

Lonni
